

I am a XM subscriber & feel it's my right to hear what they broadcast & reject simply everything FCC so far has done to infringe on my right to hear & see what I call censorship coming from this agency. I reject the NAB's petition 04-160 and I support XM's efforts to provide me with the excellent programming they now offer. I do not wish to see my rights imposed by FCC to take away this & all quality programming in media as is my right as a US citizen!

Sincerely,

Eva C. Hunter
